ONECALL MANAGE'S CÉLINE GREFFARD NAMED NEW JERSEY TOP 25 LEADING WOMEN ENTREPRENEUR

NJ MONTHLY CITES TRACK RECORD OF "INNOVATIVE ENTREPRENEURSHIP" IN MALE-DOMINATED TECH SECTOR

OneCall Manage, a leading provider of wireless expense management solutions and services, today announced that company co-founder and president Céline Greffard has been named to NJ Monthly's annual list of the state's leading women entrepreneurs.

The magazine's profile of Greffard highlighted her long history of "innovative entrepreneurship" and active engagement with local community causes.

Greffard and fellow entrepreneur businesswoman/visionary Berylle Reynolds launched OneCall Manage in 2006. The company uniquely empowers clients to intelligently manage the growing use of mobility—and associated costs—across their organizations. OneCall Manage was also one of the first companies in the telecom market to provide clients with fast, cost-efficient access to high-value software capabilities via the "cloud" delivery model.

"It is a great honor to be recognized as a leader in New Jersey's vital tech sector—and to be included in the company of all the other remarkable women who are doing so much to eliminate the deeply entrenched gender inequities of the business world," said Greffard.

The formal awards ceremony for the NJ Top 25 Leading Women Entrepreneur program will be held at the prestigious Fiddlers Elbow Country Club in Bedminster Township at 6:00 pm on December 5, 2013. Reservations are available at www.leadingwomenentrepreneurs.com.
